SA-15

Blade with a built-in spring automatically retracts after cutting

“No Lock Mechanism” means the blade never stays out.

The SA-15 goes beyond the features of a typical safety knife. Unlike typical short-blade safety knives, the SA-15 can make deep cuts with the long, solid, thick blade. Yet it still automatically retracts to protect against dangerous injuries. Safely cut at various depths with confidence using the KDS SA-15 safety knife.

Features

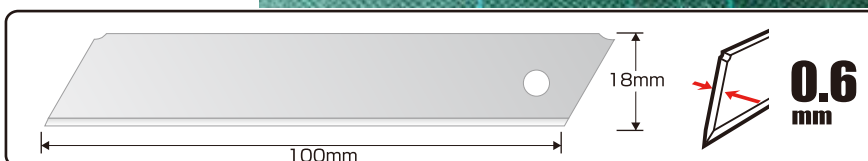

- Minimizing accidents and injuries caused by the exposed blade

- Safety lock prevents blade from accidentally popping out

- T=0.6mm G-type NON-Snap Blade

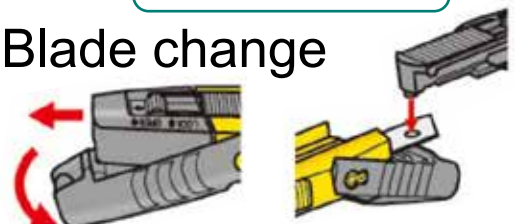

Art. SA-15 Code: 565626

Packing : 80pcs(8 x 10)

Plastic-free
paper box

Blade change

Spare blade: Art. GB-10NL EVO

Code: 565640

Packing : 200pcs(20 x 10)
